Shuffle all the cards and pass the entire deck out to the two players. Each player holds their cards in a pile face down, and turns the top card over. The player with the higher number card gets both of the cards. If both players flip over the same number then you both flip again and the player with the higher number gets all 4 cards. The game is over once the cards in your hand are gone. You then count to see who has the most cards. The person with the most cards is the winner.
